

Project Initialization and Planning Phase

Date	08 October 2026
Team ID	UNM1611GUFRAN/SWTID-2026-9802
Project Name	AI FAQ Assistant API
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement):

We created a problem statement to understand our customer's point of view. The customer problem statement helps us to focus on what matters most to deliver experiences people will truly value. A well-articulated customer problem statement allows our team to design the idea solution for the challenges faced by our users. Throughout this process, we are able to empathize with our customer, which helps us better understanding how they perceive our product or service.

Example:

Problem Statement (PS)	I am (Student)	I'm trying to	But	Because	Which makes me feel
PS-3	Student or professional user	Get instant, accurate answers	FAQs are static, outdated	No AI adaptability	Frustrated and uncertain
