Empathy Map

An empathy map captures what users say, think, do, and feel about the problem, helping the team design a solution that truly reflects customer needs and emotions.

SAYS • I need quick, accurate answers. • Searching multiple sites wasted time.	THINKS • AI should help me get structured FAQs. • I want a secure system that remembers my queries.
AKASH <i>(Role: User or a professional)</i>	
DOES • Logs in to the FAQ Assistant. • Creates, searches, and manages FAQs. • Uses AI endpoints for instant answers.	FEELS • Confidently when answers are accurate. • Relieved when FAQs are well-structured. • Annoyed when information is outdated or irrelevant.
